

Superyacht Amnesia becomes Andreas L at Liveras Yachts

02-Sep-10

Following yesterday's news about the sale of the 60m motor yacht [Amnesia](#), I learn that she has been acquired by [Liveras Yachts](#) and renamed *Andreas L* in memory of Andreas Liveras, who pioneered the owner-operator charter concept 25 years ago.

Andreas L is immediately available for the charter market. Already a highly successful charter superyacht, she was conceived and designed with charter in mind and carries the latest audiovisual and communications systems, along with a vast array of watersports equipment, a fully-equipped gymnasium and a dedicated, tranquil massage room.

Contemporary, elegant styling runs throughout the light and spacious interior while fantastic open decks, a vast Jacuzzi and excellent sun-lounging spaces provide a host of facilities for life outdoors. Accommodation is provided for 12 guests in six large, airy cabins configured as a master suite, VIP suite (convertible to twin), two doubles and two twins with additional Pullman berths in each twin.

For more details about this superyacht contact:
