

BROKERAGE

The eagerly awaited 85.3m *Annaliesse* is now on the charter market. Launched earlier this year from the Neorion New shipyard in Greece, she was built to Det Norske Veritas classification and is fully SOLAS compliant. More of a floating palace than a

superyacht, she is equipped to carry up to 36 guests, who enjoy a one-to-one crew/guest ratio. Her upper deck is given over to the 110m² master suite, while the VIP stateroom is located on the bridge deck. There are ten guest staterooms at main deck level (six doubles and four twins) and a Further five elsewhere, one of which is connected to the master suite.
